Fax: 815-899-0183**

September 13, 2017

### **Toxics in Packaging**

Consistent with our core values, ElgiLOY Specialty Metals strives to provide high quality, safe products for our customers. We are dedicated to working with our customers and suppliers to meet consumer product safety requirements applicable to our products, including the Toxics in Packaging.

We recognize that heavy metals in packaging is part of the total concern regarding the disposal of hazardous constituents in the solid waste stream. ElgiLOY does not add to any package or packaging component lead, mercury, cadmium, and hexavalent chromium.
