July 2, 2020

Subject:

EU Regulation EC 1907/2006; Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) Substances of Very High Concern (SVHC) published Candidate Lists.

On 25 June 2020 the European Chemicals Agency (ECHA) added four new substances to the Candidate List of Substances of Very High Concern. Three substances were included due to their toxicity to reproduction (Article 57c) and a fourth due to its endocrine disrupting properties to human health (Article 57f).

Elgiloy Specialty Metals, a division of Combined Metals of Chicago L.L.C., has reviewed our current operations and does not knowingly add to the product or processes used to produce parts, any of the substances included on the Candidate List of Substances of Very High Concern (SVHC) at a level greater than 0.1% by weight.

If you require more information about the materials used in the products that we supply, please contact your sales representative.

Sincerely yours,

Alexandra Moore-Staub
