## SPECIALTY METALS | STRIP

High Performance Alloys - Precision Rolling

**Elgiloy Specialty Metals processes rolled precision strip in over 75 high performance alloys for mission critical applications.**

Our three facilities offer multiple precision rolling mills, furnaces, tension leveling lines, and production flexibility for better lead times. We roll highly engineered strip to exacting tolerances in nickel alloys, cobalt, titanium, and stainless steels. Capabilities vary by mill, producing strip and foil as light as 0.0008" and as wide as 40".

We operate AS9100:2016, ISO 9001:2015, and A2LA/ISO 17025 certified facilities, providing testing that is fully compliant with Nadcap standards for heat treatment and material testing, as well as various NRC certifications.

### Strip Capabilities

Precision Rolling	Annealed Gauge Range: 0.0008" to 0.100" (0.02mm to 2.5mm) Tempered Gauge Range: 0.0008" to 0.062" (0.02mm to 1.57mm)
Precision Slitting	Gauge: 0.0008" to 0.100" (0.02mm to 2.5mm) Width: 0.020" to 48" (0.50mm to 1219.2mm)
Edge Finishing	1 Round, 3 Slit, 4 Round, 5 Deburred
Surface Finishes	Standard and custom finishes available
Packaging Options	Pancake coils or spools
Tension Leveling	Available at all rolling facilities
Tech Support	Metallurgical investigation & application assistance for material recommendations

### Quality

#### Accreditations

- » AS9100:2016 & ISO 9001:2015
- » Nadcap Heat Treatment
- » Pratt & Whitney
- » Rolls-Royce
- » Mitsubishi
- » BAE Systems
- » BAE Systems Cert Approval
- » 10 CFR 50 Appendix B
- » 10 CFR 21

#### Laboratory Accreditations

- » Elgin Lab - Nadcap Materials Testing
- » Hampshire Lab - Nadcap Materials Testing
- » Nadcap Heat Treating
- » GT193-T3166-Jan\_31\_2022-BG-1

We provide highly engineered specialty metals to thousands of mission critical applications in:

Aerospace

Chemical Processing

Defense

Medical

Oil & Gas

Power Generation  
including nuclear
